

A silicone hydrogel contact lens for monthly replacement with 45% water content, a bi-curve back surface, aspheric edge design and integrated UV protection

Contopharma contaview Si-Hy is a silicone hydrogel monthly contact lens that provides superior vision and comfort. The silicone hydrogel material combines excellent oxygen transmittance (119 Dk/t) with a class 1 UV filter (filters 90 % of UVA and 99 % of UVB rays).

The contaview Si-Hy is available in spherical, toric and multifocal versions, and thus offers a wide range for all types of defective vision.

Modulus	0.80
UV protection	1 st Klasse
Handling tint	Blue
Packaging unit	Boxes of 3 und 6
Manufacturing process	Moulded

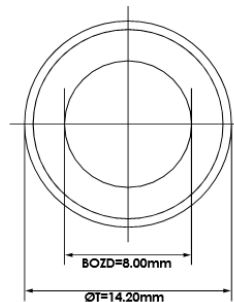

spheric

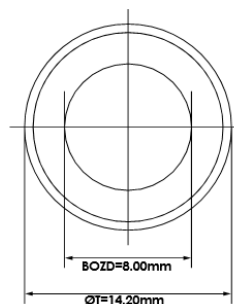

toric

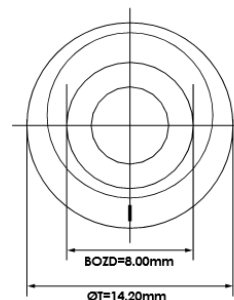

multifocal

multifocal

Parameter

Base curve	8.60 mm
Diameter	14.20 mm
Power range (dpt)	
SPH	-10.00 to +8.00 (steps of 0.50 to ±6.00)
TOR, MF	-10.00 to +6.00 (steps of 0.50 to -6.00)
Cylindrical values (dpt)	-0.75 to -2.25 (0.50)
Axis	All (10°)
Additions	Low (+1.00) Medium (+1.50) High (+2.00)
Geometry	CN

Material

Typ	Filcon 5C (70) [45%]
DK (ISO 9913-1-1998)	70
DK/t (at -3.00 dpt)	119
Water content	45%
CT (at -3.00 dpt)	0.06
CoF	0.03
